

# FOOD HYGIENE NOTICE

---

1. Please ensure that hands are washed thoroughly after using the toilet, after coughing/sneezing, handling rubbish or cleaning and before touching any food.
2. Disposable towels should be used for drying hands and mopping spills.
3. All rubbish bins should be kept well away from food.
4. The small round sink is for washing paint pots, emptying bowls used by the children and washing hands.
5. The large sink under the window is for washing up. Please remember to rinse all items washed with hot water, as dishes that are not rinsed are covered with large numbers of bacteria.
6. If you have any cuts on your hands, please keep them covered with a waterproof plaster.
7. Keep children out of the kitchen.
8. Do not carry things through doors to the hall, but pass them through the hatch.
9. Do not take hot drinks away from the hatch and into the hall.
10. Open containers of milk should not be put back into the fridge, and any open and unused milk should be discarded at the end of the session.
11. Please wipe down surfaces with an anti-bacterial spray before any food preparation.
